EDUCATION

SRTM University Nanded .
Bachelor of Computer Applications (BCA)

- Percentage: 86.45%

PROFESSIONAL SUMMARY

Full Stack Developer with **2.6 years** of experience in designing, developing, and maintaining backend-driven applications and web systems using **Ruby on Rails and Angular**. Strong experience in building **RESTful APIs**, implementing authentication, authorization, and business logic, and working with **MySQL** and **PostgreSQL databases**. Skilled in developing responsive **Angular** user interfaces using JavaScript, jQuery, HTML, CSS, and Bootstrap, with solid debugging abilities and hands-on experience across the complete software development lifecycle.

WORK EXPERIENCE

Software Developer (Full Stack)

Define Labs Pvt Ltd , Pune

SEP 2023 - MAR 2026

- Developed and maintained full-stack web applications using **Ruby on Rails and Angular**.
- Built and integrated **RESTful APIs** for user management, betting logic, contests, wallets, and live scores.
- Created responsive **Angular UIs** and implemented real-time updates using WebSockets.
- Worked with **PostgreSQL** and **MySQL** for database design and optimization.
- Implemented authentication, authorization, and KYC workflows.
- Performed **code reviews**, **bug fixes**, and performance optimization.
- **Deployed** applications on AWS using **Nginx/Apache** and supported **CI/CD pipelines**.
- Collaborated with cross-functional teams across the full development lifecycle.

PROJECT DETAILS

- **Sklash Games (ROR - Backend) (2023 -2026)**
Multiplayer gaming platform featuring Ludo and Chess. Worked on backend services and frontend dashboards with real-time synchronization.
- **SportX (ROR - Backend) (2023 -2026)**
Cricket-focused application providing live scores, alerts, and notifications using real-time APIs and event-driven updates.
- **Arenas (ROR - Backend [Admin Panel]) - (2024 - 2026)**
Centralized Ruby on Rails backend platform supporting multiple gaming applications. Built scalable REST APIs, real-time services, and common business logic used across platforms.
- **Heroic (ROR [Admin Panel] / [SuperAdmin Panel] / [Userpanel] etc..) (2024 - 26)**
Sports betting and live score platform for Cricket, Tennis, and Football. Implemented live data updates, betting markets, and user management features.
- **BallChalu (Angular) (2024 - 2026)**
Fantasy cricket and betting application similar to Dream11. Developed contest management, team creation logic, and scoring workflows.
